Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

5. The present invention is directed to a method for scaling peak power amplitudes in a signal at a transmitter before submitting said signal to a power amplifier. Each independent claim identifies the uniquely distinct features "calculating scaling factors for a pulse train comprising a group of at least two peaks whose power exceeds a predefined threshold, said scaling factor for one peak taking into account an influence

on said peak which occurs if at least one other peak of said group is applied a scaling factor". The closest prior art of record, Tellado et al. U.S. Patent 6,314,146 B1 disclosing peak to average power ratio reduction, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious..

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
